

F.Y. 2007 Appropriations for Cooperative State Research, Education, and Extension Service

Budget and Advocacy Committee of the Board on Agriculture Assembly National Association of State Universities and Land-Grant Colleges

February 2006

NASULGC supports the full range of research, teaching, and outreach programs funded through the Cooperative State Research, Education, and Extension Service. However, we support significant funding increases for certain "base fund" programs and other line-items that have been chronically under funded. We also support the President's Budget Request for agrosecurity and the National Research Initiative.
