NATIONAL INSTITUTE OF FOOD AND AGRICULTURE

## 1994 Institutions Research Program

*Increased investment needed for critical research projects conducted by Tribal Colleges and Universities.*

American Indian communities across the United States are served by tribal institutions of higher education awarded land-grant status in 1994. Currently, 32 Tribal Colleges and Universities (TCUs) located in 12 states are deemed 1994 Land-Grant Institutions. These TCUs are eligible to compete for grants awarded under the 1994 Institutions Research Program administered by the USDA's National Institute of Food and Agriculture (NIFA).

This program provides the 1994 Land-Grant Institutions with resources to conduct fundamental and/or applied research that addresses high priority concerns of tribal, national, or multistate significance. It addresses food and agricultural sciences, including: sustainable agriculture or forestry; biotechnology and bioprocessing; agribusiness management and marketing; plant and animal breeding and aquaculture; human nutrition (including health, obesity, and diabetes); and family, community, and rural development. Some examples:

- The College of Menominee Nation in Wisconsin is collecting and analyzing data concerning forest health and sustainability that will help its tribal forest managers meet the growing demand for forest products while protecting the environment for future generations.
- Turtle Mountain Community College in North Dakota is studying the spread of West Nile virus, which causes serious diseases in animals and people. Results of the study will assist tribal efforts in the surveillance, prevention and control of the mosquito-borne virus.

**Despite such successes, the 1994 Institutions Research program has never received the funding support it deserves. As a result, many meritorious projects go unfunded. In FY 2008, for example, USDA was able to fund only five of the nine grant proposals received from eligible 1994 Institutions.**

**When it considers the FY 2010 Agriculture Appropriations bill, A.P.L.U. urges Congress to increase the 1994 Institutions Research program to \$3 million.**

### A.P.L.U. PRIORITY REQUEST FOR FY 2010

1994 Institutions Research Program.....\$3 M

#### 1994 Land-Grant Institutions are...

Tribal Colleges and Universities granted land-grant status under the Equity in Educational Land-Grant Status Act of 1994 to serve their constituents through higher education programs involving teaching, community outreach, and research. The 1994 Institutions primarily serve American Indian populations in remote, underserved communities through culturally relevant curriculum and programs.

#### 1994 Land-Grant Institutions are located in...

Alaska, Arizona, Kansas, Michigan, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, Washington, and Wisconsin.

#### Membership in A.P.L.U.

The 1994 Institutions comprise and are represented by the American Indian Higher Education Consortium (AIHEC): [www.aihec.org](http://www.aihec.org)

# 1994 Institutions Research Program

<b>Appropriations Bill</b>	Agriculture				
<b>Agency</b>	National Institute of Food and Agriculture (formerly Cooperative State Research, Education, and Extension Service)				
<b>Account</b>	Research and Education Activities				
<b>Program Name</b>	1994 Institutions Research Program				
<b>Requested Amount</b>	<b>\$3,000,000</b>				
<b>Authorization</b>	7 U.S.C. 301, (Equity in Educational Land-Grant Status Act of 1994).				
<b>Description</b>	This NIFA program provides competitively-awarded grants for research to address the problems unique to Native American people and their communities.				
<b>Benefits/Impacts</b>	<p>The 1994 Institutions Research Program benefits America by providing research capacity to:</p> <ul style="list-style-type: none"> <li>■ Improve knowledge concerning the complex linkages between food, culture, and diet related illness such as obesity and diabetes.</li> <li>■ Preserve the natural resources of America and Tribal nations.</li> <li>■ Maintain the economic competitiveness of food producers that operate on Tribal lands.</li> <li>■ Cooperate with other universities within the land-grant system to address the unique research needs of American Indians in Indian Country and throughout the nation.</li> </ul>				
<b>Funding History</b>					
<b>FY 2010 President's Budget</b>	<b>FY 2009</b>	<b>FY 2008</b>	<b>FY 2007</b>	<b>FY 2006</b>	<b>FY 2005</b>
\$1,610,000	\$1,610,000	\$1,533,000	\$1,544,000	\$1,029,000	\$1,078,000
<b>Misc. Information</b>					
<b>Matching Funds</b>	By statute, eligible institutions are not required to provide a match.				
<b>Final Recipients</b>	Eligibility is defined by statute to include the 1994 Land-Grant Institutions.				
<b>Note for Senate Offices</b>	Funding is not being requested for this program through another appropriations bill.				
<b>Additional Information</b>	<a href="http://www.land-grant.org/kb.htm">www.land-grant.org/kb.htm</a>				

The Association of Public and Land-grant Universities, represents 217 U.S. universities and has members in all 50 states, the District of Columbia, and the U.S. territories.
